Personal Profile

An aspiring full stack developer, with Master's degree in Applied Computing (MAC) from Wilfrid Laurier University and a Bachelor of Engineering (BE) in Computer Science from Gujarat Technological University. Seeking a full-time full stack developer position to utilize skillset.

Highlights of Qualifications

Strong communication and interpersonal skills.

Good team player: able to work independently or as a team.

Detailed oriented, strong continuous learning abilities.

Familiar with frameworks and fundamentals.

Education

Sep 2024 – Jan 2026: Master of Applied Computing

Wilfrid Laurier University, Canada

Jul 2019 – Jun 2023: Bachelor of Engineering in Computer Science

Babaria Institute of Technology, India

Experience

Nov 2024 – Dec 2025: Technical Support (Academic)

Wilfrid Laurier University

- Assisted with day-to-day IT operations and user support, successfully resolving number of hardware, software, and network connectivity issues across academic lab systems .
- Performed basic troubleshooting of desktop environments, printers, and system configurations, significantly reducing downtime for end-users .
- Supported computer provisioning, setup, and imaging for lab workstations, ensuring seamless technology access .
- Provided support for Microsoft Office 365 applications and collaborative tools, ensuring proper system configurations and user access.
- Maintained detailed IT documentation and inventory of recurring technical issues and resolutions, improving overall support efficiency .

May 2025 – Sept 2025: Teaching Assistant

Wilfrid Laurier University

- Assisted with user onboarding and training for 50+ students, explaining complex technical concepts, system setups, and computer operations clearly .
- Researched and assisted in resolving technical issues related to application development and software environments, demonstrating strong problem-solving skills and attention to detail .
- Exhibited excellent communication and teamwork skills by collaborating with faculty to streamline assignment grading and technical evaluations .

Jul 2023 – Aug 2024: Lecturer

Drs. Kiran & Pallavi Patel Global University

- Delivered technical training and instruction, supporting students in understanding computer systems, operations, and database management .
- Guided and mentored teams through problem-solving exercises, system design, and structured software development practices .
- Showcased a strong willingness to learn and take initiative by integrating new technical tools (Git, SQL) into standard curriculum to improve technological readiness .

Jan 2023 – Jul 2023: Full Stack Developer Intern

Ingenious Technologies Ltd.

- Assisted in resolving complex technical issues and performance bottlenecks, researching solutions to im-

- prove system responsiveness by 25% .
- Troubleshoot and resolved application bugs and data flow problems, collaborating closely with team members to improve usability and functionality .
- Maintained accurate documentation for application features and supported day-to-day software operational workflows .

Projects

System Analytics & Dashboarding | Python, SQL, Data Analysis

- Researched and analyzed large datasets to resolve data inconsistencies and generate reliable performance insights .
- Created detailed reporting dashboards to communicate technical trends, demonstrating strong attention to detail and analytical skills .

Network Reliability Prototype | Go, Docker, System Design

- Built a distributed systems prototype to evaluate fault tolerance and system reliability under simulated network connectivity failures .
- Tested adaptive timeout strategies, strengthening hands-on understanding of system troubleshooting, debugging, and operational performance .

Skills

IT Support & Operations: Hardware & Software Troubleshooting, Computer Provisioning & Imaging, User Onboarding & Training, IT Inventory Management, Helpdesk Support.

Systems & Applications: Microsoft Office 365, SharePoint, OneDrive, Microsoft Teams, Telephony Systems, Windows OS.

Networking & Infrastructure: Network Connectivity, Printer Setup & Configuration, System Maintenance.

Development & Tools: Python, Java, SQL, Git, Docker, Database Management, Agile Development.
